Description

The vacuum packaging DJ-DZ350/M is a compact single chamber commercial packing machine and one of our most unique products, measuring in at (425x560x360) externally and (370x450x120) internally.

This highly versatile and portable unit can be used both in commercial restaurants or cafes, and even at home as well. It contains a viewing window, which enables a look into the interior process, with a stainless-steel build providing a hygienic solution and a digital control panel for convenience and easy use.
