

# CROCKERY

# ZUMA

Zuma is produced using once fired technology, reducing the impact of manufacture on our environment. A fully vitrified body and rolled edges, produces a strong and durable crockery.

We are excited to announce the addition of 3 new colours; Frost, Haze and Mint that add a fresh and contemporary palette to our existing earthy tones.

All colours can be introduced to your existing table setting or mix and match from the eight colours to create your own innovative style, a natural choice for your table ware.

# Stonecast<sup>®</sup>

by  
**CHURCHILL<sup>®</sup>**  
super vitrified

Introducing 'Stonecast' an exciting new collection of rustic and hand decorated products from Churchill. Reviving classic designs from the Churchill archives, each pin fired piece is hand painted then finished with a fine speckle & rustic edge in golden brown. The nature of the process means that every piece will be slightly different, adding to the overall charm of the product.

Stonecast complements all types of foods and adds value and authenticity to the overall presentation. The range is suitable for a broad range of cuisines and settings, from cafes and pubs through to premium restaurants looking for an eye catching product to truly showcase their dishes. Whatever your venue or style of food, Stonecast offers the perfect choice.

## **MADE IN ENGLAND**

MADE IN ENGLAND

Churchill has a long history of bringing the highest quality products to the hospitality industry. Based in the heart of the Potteries in Stoke-on Trent England since 1795, Churchill has progressively developed, but continues to manufacture many of its lines in the United Kingdom.

## **5 YEAR EDGE CHIP WARRANTY**

All items marked with a star throughout the Churchill pages are covered by a 5 year edge chip warranty. Items will be replaced for a period of 5 years from the original date of purchase for any edge chips that occur during "normal" food service use, this warranty covers chipping only, not breakages.

# CHURCHILL®

super vitrified

Churchill prides itself on delivering innovative, high performance, pin fired products to an ever changing, global market place. With over 200 years of innovation, passion and expertise makes Churchill the natural partner for providing tabletop solutions. Within the hospitality sector, the choice of tableware must meet the highest standards for presentation, practicality and performance.

## MADE IN ENGLAND

Churchill has a long history of bringing the highest quality products to the hospitality industry. Based in the heart of the Potteries in Stoke-on Trent England since 1795, Churchill has progressively developed and continues to manufacture many of its lines in the United Kingdom.

## 5 YEAR EDGE CHIP WARRANTY

All items marked with a star throughout the Churchill pages are covered by a 5 year edge chip warranty. Items will be replaced for a period of 5 years from the original date of purchase for any edge chips that occur during "normal" food service use, this warranty covers chipping only, not breakages.

## ECO GLAZE

Eco glaze offers a superior glaze finish that enhances product performance by reinforcing product stability and durability. Characteristics include reduced stain and metal marking resistance, which prolongs the life of the product. Eco Glaze is fully recyclable, meaning it has less impact on the environment.

# Luzerne

When selecting Luzerne New Bone, you can be sure you're getting a product that has been made with quality materials. Our commitment to long lasting quality and reliability ensures that our range is produced to the highest standards, able to withstand daily heavy usage, typical to busy hotels, restaurants and cafes.

The journey to create the finest product begins with the right mix of raw materials; ground, sieved, demagnetized and filtered to our precise standards before they are transformed into works of art. This refined clay base is then shaped in 3D plaster moulds that are painstakingly hand crafted by our craftsmen, before going into an automated kiln for the initial firing process at a temperature of 800°C. Next the pieces are painted by hand to our custom designs and glazed to achieve a variety of aesthetic effects, be it transparent, opaque or semi-matte. The glazed wares are then fired for a second time in the kiln at a temperature of 1280°C for 15 to 30 hours to produce that perfectly finished product that the market has fallen in love with.

## **5 YEAR LIMITED EDGE CHIP WARRANTY**

All Luzerne New Bone items are covered by a 5 year edge chip warranty. Items can be replaced for a period of 5 years from the original date of purchase for any edge chips that occur during "normal" food service use, this warranty covers chipping only, not breakages. For more information on how to prevent damage, please refer to our Care & Maintenance section.

# BAUSCHER

G E R M A N Y

The search for something new and better is the hallmark of the Bauscher brand.

When they established their business back in 1881, brothers August and Conrad Bauscher were focusing on something absolutely unprecedented: professional tableware. They wanted the products they made to be robust, functional, durable – and beautiful. It is these qualities that have made the Bauscher brand one of the world's most popular ranges of professional tableware, produced in one of the most modern production facilities in Europe. Our ISO 14001-certified environmental management system shows our commitment to sustainability. We are also the first porcelain company in the world with an energy management system certified to ISO 50001.

As a visionary in this field, Bauscher is leaving an impressive mark on the global hotel and restaurant sector, in hospitals, aged care homes, and the professional catering world.

Thinking in terms of systems and processes, and combining functional solutions with an attractive look, are the goals of every development process. Again and again, the Bauscher brand showcases its expertise in aesthetic yet functional design, for example the award-winning Enjoy collection.

On the banks of the Magdalena River in central Colombia, villagers from La Chamba continue an artisanal tradition that spans over 700 years.

Using the local mineral-rich clay, artisans produce 'La Tapa' cookware. Every piece of cookware is burnished by hand then fired on site.

Free of toxins, chemical glazes and lead clay, 'La Tapa' offers a comprehensive, fashionable, eco-friendly range of cookware. These artisanal pieces can be used (after curing, see care instructions) on gas stove top, in the oven and microwave. If using 'La Tapa' on an electric stove top a heat diffuser is required.

Items within this range include griddle pans, roasters and baking dishes, fully complemented with a range of unique tapas dishes.

## TAPAS

La Tapa is Colombia's gift to the hospitality industry. It's versatility enables use from oven and stove top cooking to serving pieces. These handcrafted vessels will add a unique piece of 'art' to your table.
